PINE APPLES. VINE lot of Pine Apples just received mass. BRANDENBURG & CO.

AVERTOR Ague Care.

FOR THE SPREDY CURE OF Remittent Fever or Fever and Ague, Remittent Fever, Chill Fever, Danb Ana, Periodical Henduche, or Billious Henduche, and Billious Peyers; indeed for the whole Class of Diseases originating in bulery derangement, caused by the Maluria of miasmatic countries.

No one remedy is louder called for by the riscossities of the American people than a sure and after ture for Fever and Aque. Such a remedy we are now consided to offer with a perfect certainty that it will credicate the disease, and with a same formatic founded on proof, that to keep can street, founded on proof, that to keep can street, founded on proof, that to keep can street than the new of a any quantity.

That which protects from or prevents this disease, and with a sealer many for the patient escapes the risk which he must run in violent attacks of this huleful discusper. This "Curan" expels the mississia poison of Feven and Advictor from the season, and prevents the development of the discusper, if taken on the first approach of its presentation symptoms. It is not only the heat remedy ever yet discuspers. The large quantity we supply for a dollar brings it within the reach of every body and in billions districts, when Feven and Advict provals, every body reach of every body; and in bilicas districts, where Fiven and Adde prevails, every body should have it, and must freely, both for euro and protection. It is hoped this price will place it within the reach of all—the poor as well as the field. A great superiority of this remedy over any other over discovered for the speedy and certain curs of Intermittents is, that it contains to Quinline or influent, consequently it produces no quintant or other legarious effects whatever upon the consultation. Those cured by it are left as healthy as if they had never had the discusse.

left as healthy as if they had never had the disense.

Fover and Ague is not alone the consequence
of the misematic poison. A great variety of disorders arise from its irritation, among which are
Neurshia, Rheumatian, Gont, Handache, Blindness. Toothache, Earache, Caturrh, Asthma,
Palpiation, Painful Affection of the Spleen,
Hysteries, Pain in the Bowels, Colic, Paralysis,
and Derangement of the Stomach, all of which,
when originating in this cause, put on the intermittant type, or become periodical. This "Cerun"
expels the poison from the blood, and cousequently cures them all alike. It is an invaluable protection to immigrants, and persons travelling or temporarily residing in the malarious
districts. If taken occasionally, or daily, while
exposed to the infection, that will be exercted
from the asystem, and cannot accumulate in sufficient quantity to ripen into disease. Hence it
is even more valuable for protection than care,
and few will ever suffer from Internitions, if
they areal themselves of the protection this remedy affords.

Disease.

So wide is the field of its usefulness, and so numerous are the cases of its enres, that almost every section of country abounds to personal publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hestians what antiole to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior translets thrust upon the community have failed and been discarded, this has gained friends by overy trial, conferred benefits on the afficted they can never farget, and produced curves too numerous and too remarkable to be forgetten.
